

A woman with dark, curly hair and a young girl with blonde hair are sitting in a garden bed. The woman is on the left, leaning over and pointing at a small green plant. The girl is on the right, wearing a green t-shirt and blue pants, holding a similar plant. They are both focused on the plants. The background is a lush, green garden with many other plants and trees, slightly out of focus. The lighting is bright and natural, suggesting a sunny day.

New innovative companions for 2016

New innovative companions for 2016

NEW FOR 2016

Our novelties will tackle anything, whether it's soil, snow or shrub-beries. These guys will work with you, side by side, for years to come.

X-Series

Every axe worker knows it. The faster you swing, the more power you deliver. That's why we've developed a brand new, patent-pending structural grip. Our 3D grip provides you with incredible control, meaning you can focus on swinging rather than holding.

PowerGearX

Next generation PowerGear X series combines the best of Fiskars existing technology and new innovations. Market leading performance. Ultra durable yet light weight. Effortless to use.

Light Series

Gardening has just become more rewarding. The lightweight Fiskars Light products are suitable for home gardeners of all ages and sizes.

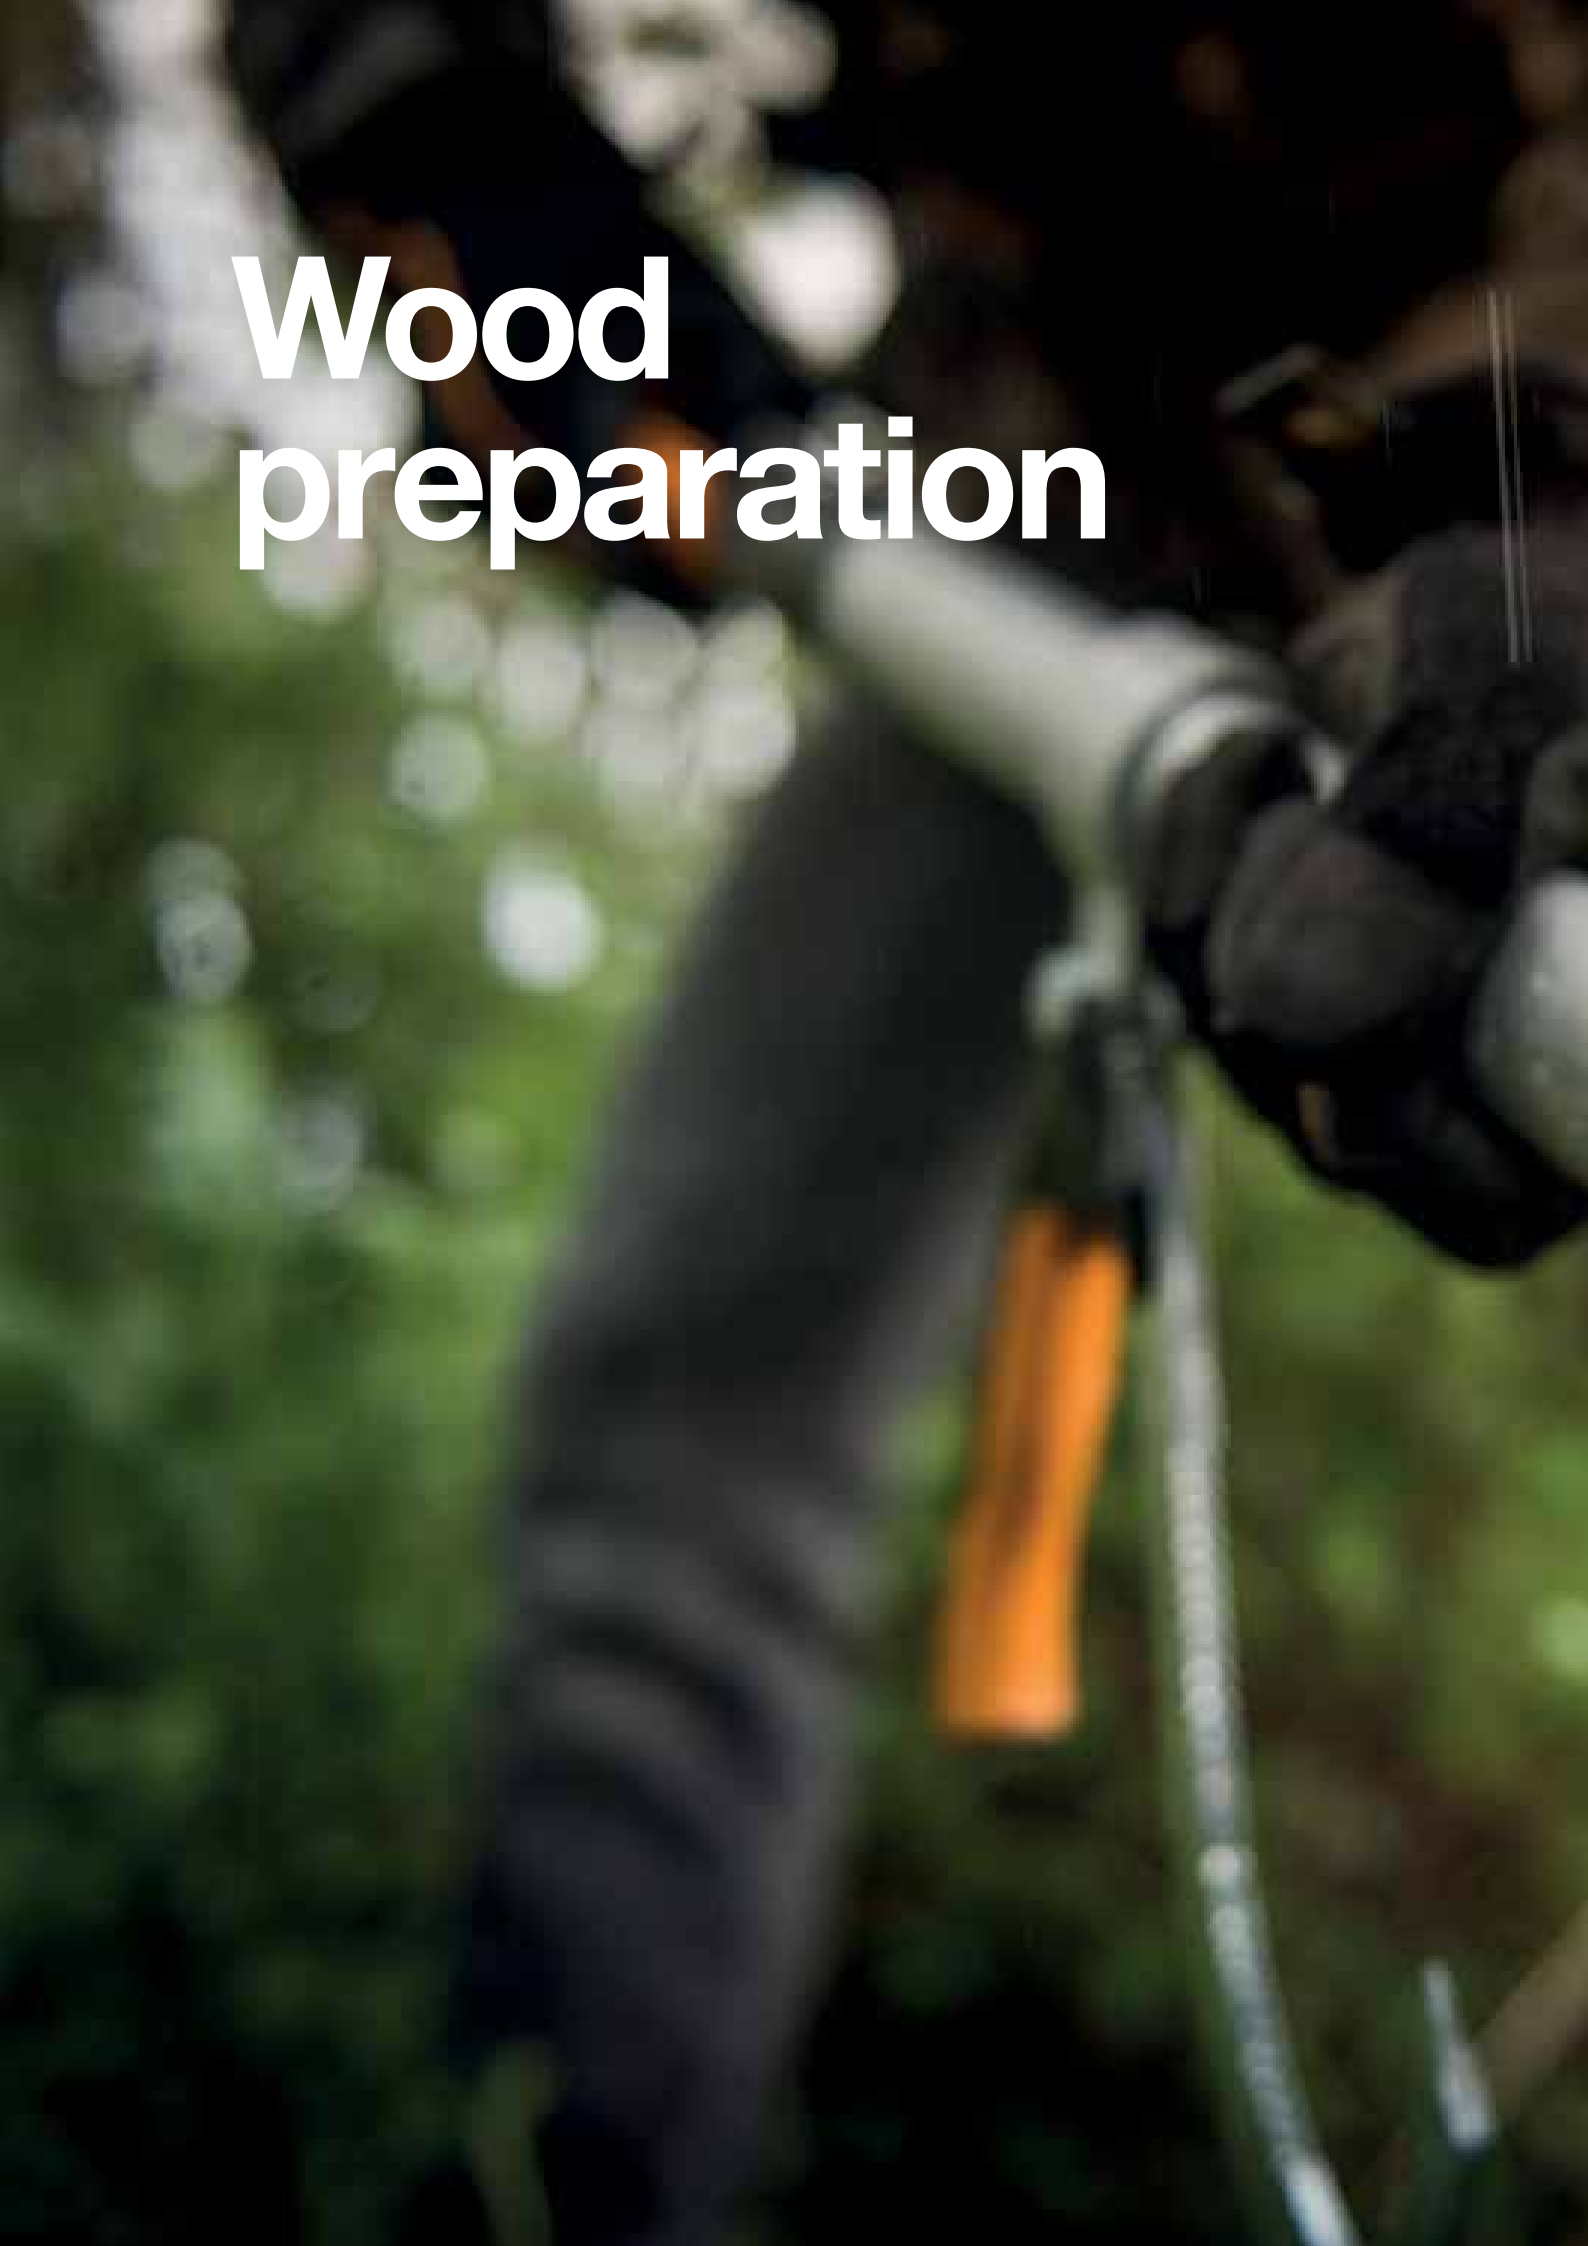

Weedpullers

Thanks to Fiskars Weedpullers, you can wave goodbye to digging, bending and herbicides.

Car tools

Lightweight and incredibly durable, our Fiskars SnowXpert™ range has been specially designed to make clearing snow easier. Combining innovative design and materials our new Car Tools clear ice, snow and moist gently and efficiently, whatever the weather.

X-Series axes

Fiskars next generation splitting axes are a true evolution of craftsmanship –purpose-designed for one strike splits of even the thickest logs. The special blade geometry and finish is complemented by a light sturdy shaft and perfect balance. Pick your size according to the task at hand.

KEY BENEFITS

- ✓ 35 degree convex cutting bevel angle for splitting axes - the convex shape strengthens the edge to make it less sensitive to fracture
- ✓ Perfect balance between head and shaft for the most safe, comfortable and efficient swing
- ✓ Ultralight and durable FiberComp™ shaft minimizes fatigue and makes the axe virtually unbreakable
- ✓ Optimal anti-shock surface structure ensures a comfortable, firm grip
- ✓ Hooked end of the handle prevents the axe from slipping out of the hand
- ✓ Comes with a plastic sheath for easy carrying and storage

Chopping vs. splitting

Chopping axes

Fiskars next generation chopping axes serve all manner of woodwork, chopping, carpentry and pruning. The range delivers a wonderful package of minimalist design and sharp-edged functionality with the right fit for all wood preparation tasks. Pick your size according to the task at hand.

The Universal Chopping Axe's thin, wide edge ensures a clean, easy cut in fresh, resinous wood, like spruce or pine.

Splitting axes

Fiskars next generation splitting axes are a true evolution of craftsmanship –purpose-designed for one strike splits of even the thickest logs. The special blade geometry and finish is complemented by a light sturdy shaft and perfect balance. Pick your size according to the task at hand.

The Splitting Axe features a unique cutting edge that easily slices into the wood, which the thick axe blade then pushes apart.

Choose the right size for you

1. LENGTH TEST

Grab the axe on the shaft below the blade. Turn the shaft towards your armpit and if the end of the shaft reaches the armpit the axe is too long

2. WEIGHT TEST

Grab the axe at the end of the shaft and let the head rest towards the ground. Lift the head up with a wrist turn close to your body as pivotal point (axe is vertically in your hand at the end of the movement) If you can't lift the axe this way, the axe is too heavy.

Fiskars digging

To make shifting soil or digging as easy as possible, you need a reliable shovel. But some tasks require different types. That's why we've developed ranges of shovels for different uses. We've got shovels ideal for moving sand or soil, or shovelling snow in the winter. We've got big shovels for big jobs and mini shovels for stowing on a camping trip. We've got shovels perfect for edging, planting and aerating. In short, we've got a shedload of shovels.

Xact™

Gardening is a demanding pastime. Fiskars Xact™ digging tools will give you that extra push to take your gardening to a whole new level and make digging a truly pleasurable experience. Fiskars Xact digging tools fit you – combining right length with lightweight material and durability.

SmartFit™

This range of telescopic tools have an adjustable shaft length which extends from 1050 mm to 1250 mm. The spades, shovels and forks can be comfortably used at range of heights. The welded connection between the blade and the shaft ensures rigid durability and longevity while its boron steel construction adds extra strength.

Ergonomic™

Beautifully designed and realized, Fiskars Ergonomic™ is a perfect selection of tools for digging, shovelling and composting – all for the most discerning gardener.

Light

The new beautiful Light range offers you a selection of lightweight tools for planting, cultivating, raking and other gardening tasks. Fiskars versatile range of soil rakes, hoes and cultivators are ideal for weed control, moving soil, creating narrow furrows for planting seeds and bulbs and even harvesting root crops.

Fiskars StaySharp™

The Fiskars StaySharp™ Max reel mower promotes greener, healthier lawns by cutting each blade of grass cleanly with a scissor-like action. This minimizes the lawn's moisture loss and reduces exposure to disease.

The Reel Mower lets you cut grass without noise, uncomfortable vibrations and the hazards associated with power driven rotary blades. It is one of the most environmentally friendly ways to cut your lawn.

- Long-lasting performance due to StaySharp™ cutting system using precision-ground, hardened steel blades to cut grass without touching
- Ergonomic, height-adjustable handle with padded grip for more comfort
- Forward grass discharge

Pick the right pruner

PowerGear™

- Patented PowerGear™ mechanism makes cutting 3,5 times easier compared to standard mechanisms
- Blades made from extra hard, corrosion resistant steel (CrMoV) ensures that they stay sharper longer
- Unique rotating handle movement ensures that all fingers are used simultaneously and exert an equal but reduced pressure for maximum power and less effort on every cut

PowerStep™

- Allows to cut thin and thick branches with the same tool, without compromising on the performance
- Thin branches are cut in one easy snip – thicker branches in 2 or 3 gradual steps to reduce the force needed per stroke
- Mechanism automatically sets the applicable amount of strokes

SmartFit™

- Optimal reach thanks to adjustable length of the handles
- Lightweight product, comfortable to use
- Ergonomic design
- Optimally shaped to fit the hand
- Fits your need - multi-purpose usage with adjustability of cutting capacity
- Fits small to large hands

PowerLever™

- Lightweight FiberComp™ handles designed for small and medium-sized hands
- Reduced cutting effort and ability to use all fingers simultaneously thanks to patented PowerLever™ mechanism
- Easier cutting and cleaning due to non-stick PTFE PowerLever Pruners coating on the upper blade to reduce friction

Fingerloop

- Lightweight and strong handles made from FiberComp™ with a safe grip
- Fingers are protected by the loop in the lower handle when cutting
- Corrosion resistant, stainless steel blades

SingleStep™

- Lightweight and durable handles made from polypropylene
- Comfortable grip due to sturdy handles
- Steady cutting action due to well-balanced design

Quantum™

- High-quality aluminium body balanced by comfortable cork TruGrip™ handles
- Clean, accurate cutting thanks to TruEdge™ blade technology including precision ground hardened steel and anti-friction coating

PowerGear™ pruners

Fiskars PowerGear™ is a versatile family of tools that include pruners, loppers and hedge shears to cover most of the cutting needs in the garden. The ingenious gear mechanism which boosts the power of the cut is complemented by sharp, quality steel blades and lightweight, durable FiberComp™ handles.

Anvil or bypass?

BYPASS

Both blade and counter blade press into the wood to make a clean cut with less compression damage (cutting blade bypasses counter blade in a scissors-like action). Possible to cut close to the stem. Best suitable for fresh wood.

ANVIL

Upper blade is forced through the wood with greater pressure as the anvil blade supports the branch and spreads the pressure until the cut is complete. Best suitable for dry or dead wood.

PowerStep™, Pro & SmartFit™ pruners

There are a multitude of different plants and tasks in the modern gardens and consequently also gardeners with day-to-day varying needs. PowerStep pruner adjusts to optimal power assistance level for cutting of both thin and thick branches, and SmartFit pruner optimizes the combination of cutting speed and branch thickness. Pro Pruner has been designed according to the traditional form and with special features appreciated by professional gardeners.

UNIVERSAL CUTTERS

Universal cutters help you reach difficult spots.

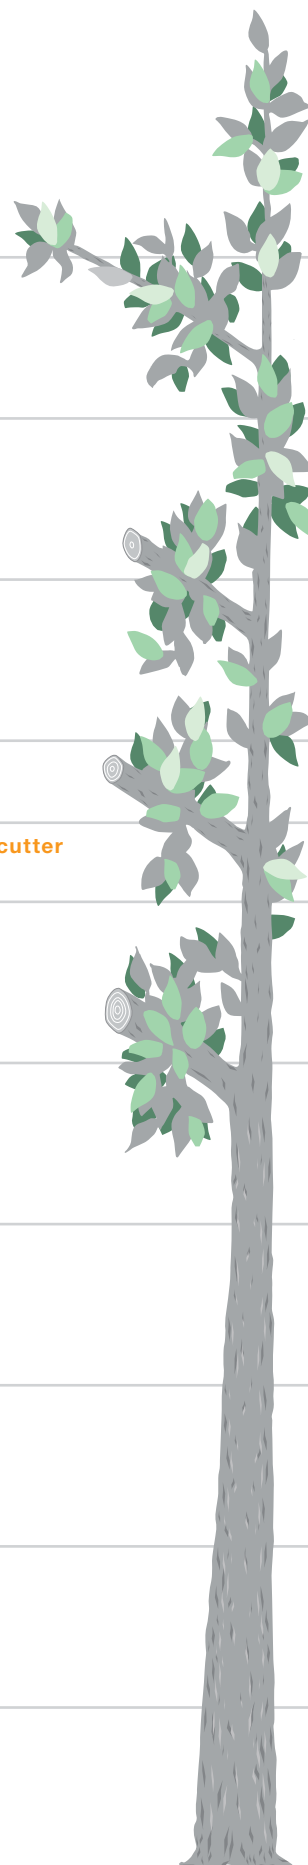

LOPPERS

Loppers are particularly suited for cutting thicker branches.

AXES AND SAWS

The saw is particularly suited for removing thick (over Ø 5 cm) branches.

An axe is good for cutting the thickest branches and splitting firewood.

Fiskars has been a part of the evolution of tools since 1649. Our scissors have cut millions of meters of fabrics. Our axes have worked millions of trunks. Our knives have cut millions of slices of bread. Our pans have fried millions of carefully marinated steaks – all with a superior outcome.
