**Enjoy the
precious little
moments
of the everyday.**

"My life is pretty hectic as I have to juggle work, family and hobbies. However, I want to try new things, when I cook for my family. A healthy meal is a way to show that I care for them."

Valeria, 39, working mother of two kids

The Busy Homemaker

By conducting extensive user studies and consumer research we have learnt a great deal about Busy Homemakers. They lead an active lifestyle and enjoy preparing healthy meals for their families. Busy Homemakers appreciate good design that combines visuality and functionality.

What is Kitchen Management?

We want to empower Busy Homemakers in their kitchens. Every day.

Therefore, we design products that take the whole cooking process into account. Fiskars kitchen tools are easy to use, clean and store.

This we call **Kitchen Management.**

The products form a visually compatible collection that creates harmony in the kitchen. They are perfect together.

✓ Easy to use ✓ Easy to clean ✓ Easy to store

Grow the category with

Seasonal Go Concepts

Seasons influence the everyday life of our target group, the Busy Homemaker. Seasonality is reflected in their routines, cooking and eating habits and buying behavior.

Fiskars has created meal based promotional Go Concepts for each season to address the needs of the target group and inspire them to buy a collection of Fiskars kitchen tools for easy and convenient cooking.

Spring

New year's resolution of **healthy eating**, working out and active life.

Summer

Time for relaxing and **enjoying good food**, drinks and life.

Autumn

Back to school, back to work and **back to routines**. A more disciplined life.

Fiskars salad tools. Perfect together.

FISKARS®

Go Breakfast

Autumn concept for back to school

Match the right pan to your hob

Functional Form Hob Optimised cookware

Buying frying pans made easy.
Four different hobs need four
different pans. Fiskars has created
pans for each hob for the most
efficient heating. Matching the
right pan to the right hob has never
been so easy.

Concept is tested by consumer who found it:

- ✓ Easy to understand; simple concept
- ✓ Easy to decide
- ✓ Easy to choose
- ✓ Easy to purchase

Growing the category with

Product placement and communication

Product mix on shelves driven by:

- ✓ Product rotation and turnover per square meter
- ✓ Role in assortment
- ✓ Innovation value

Our shelving principles cover the whole cooking process:

- ✓ Task based shelving for easy navigation
- ✓ Cross-category offering displayed for convenient shopping

Shopper conversion is driven by:

- ✓ Easy to find products
- ✓ Product information and inspiration at the shelf

Easy cutting

FISKARS®

Communication at shelf

1. Branding

Fiskars logo as top sign.

2. Navigation

Orientate consumers with the sub-category sign-posts.

3. Product communication

Activate with a call to action POS. Educate with product relevant materials.

4. Inspiration

Raise the category profile and bring cooking alive with pictures of food & people.

Increase consumer interest with new product categories

Fiskars indoor growing

Fiskars drives the trend of urban food growing with new innovative products for indoor growing.

Enjoying fresh flavours all year round is as simple as can be thanks to the new Fiskars KitchenGarden™ – a beautifully designed growing solution which uses the power of LED light to ensure store bought herbs not only stay fresh but continue to flourish in a perfectly controlled growing environment.

Functional Form

The Functional Form collection consists of a wide range of high quality kitchen knives, scissors, utensils, cookware and cutlery. They form a visually harmonious collection that empowers everyday life by being easy to use, clean and store.

5 702268 581851

Stainless steel ensures good, firm grip on fish bones.

Salad spinner

Art. no. **1014433**

EAN

Height: **169 mm**Length: **250 mm**Width: **253 mm**Weight: **755 g**Retail box: **2**Old art. no. **200097**

6 424002 000976

Perfect for fresh and tasty salads, for preparing and serving. Dishwasher-safe.

Salad tongs

Art. no. **1014434**

EAN

Height: **330 mm**Length: **30 mm**Width: **75 mm**Weight: **129 g**Retail box: **4**Old art. no. **200098**

6 424002 000983

Perfect for preparing and serving either as salad spoons or clicked together as tongs. Easy take-apart function.

Vegetable slicer

Art. no. **1014416**

EAN

Height: **59 mm**Length: **320 mm**Width: **83 mm**Weight: **173 g**Retail box: **2**Old art. no. **200092**

6 424002 000921

Perfect for easy slicing. Finger-guard makes it safe to use.

Coarse grater

Art. no. **1014410**

EAN

Height: **58 mm**Length: **320 mm**Width: **83 mm**Weight: **156 g**Retail box: **2**Old art. no. **200088**

6 424002 000884

Perfect for easy grating. Finger-guard makes it safe to use.

Fine grater					Art. no. 1014412	EAN	
Height: 59 mm	Length: 320 mm	Width: 83 mm	Weight: 156 g	Retail box: 2	Old art. no. 200089		

Perfect for easy grating. Finger-guard makes it safe to use.

Dressing shaker					Art. no. 1014347	EAN	
Height: 160 mm	Length: 80 mm	Width: 78 mm	Weight: 227 g	Retail box: 4	Old art. no. 200085		

Perfect for tasty salad dressing. Preparing, serving and storing salad dressing is easy by just twisting the silicone lid.

Fixed blade peeler					Art. no. 1014418	EAN	
Height: 24 mm	Length: 270 mm	Width: 78 mm	Weight: 60 g	Retail box: 6	Old art. no. 200093		

Perfect for easy peeling. Softgrip™ handle

Swivel blade peeler					Art. no. 1014419	EAN	
Height: 26 mm	Length: 270 mm	Width: 78 mm	Weight: 65 g	Retail box: 6	Old art. no. 200094		

Perfect for easy peeling. Softgrip™ handle.

Garlic press					Art. no. 1014349	EAN	
Height: 38 mm	Length: 180 mm	Width: 79 mm	Weight: 136 g	Retail box: 4	Old art. no. 200087		

Perfect for tasty cooking. The grid can be flipped for easy cleaning.

Whisk					Art. no. 1014437	EAN	 6 424002 001010
Height: 341 mm	Length: 70 mm	Width: 80 mm	Weight: 54 g	Retail box: 6	Old art. no. 200101		

Perfect for easy whisking. Especially suitable for whisking semi-liquid mixtures such as pan-cake batter.

Spiral whisk					Art. no. 1014438	EAN	 6 424002 001027
Height: 61 mm	Length: 350 mm	Width: 78 mm	Weight: 53 g	Retail box: 6	Old art. no. 200102		

Perfect for easy whisking. Especially suitable for whisking cream and sauces.

Frying guard					Art. no. 1014348	EAN	 6 424002 000860
Height: 462 mm	Length: 50 mm	Width: 305 mm	Weight: 257 g	Retail box: 5	Old art. no. 200086		

Perfect for clean and safe frying. Fits all pans.

Colander					Art. no. 1014345	EAN	 6 424002 000846
Height: 44 mm	Length: 440 mm	Width: 195 mm	Weight: 244 g	Retail box: 6	Old art. no. 200084		

Perfect for easy cooking. Collapsible structure makes it easy to store.

Spoon					Art. no. 1014435	EAN	 6 424002 000990
Height: 28 mm	Length: 360 mm	Width: 78 mm	Weight: 75 g	Retail box: 6	Old art. no. 200099		

Perfect for easy cooking and serving. Hard plastic makes the spoon sturdy in use and silicone edge wipes the pan perfectly.

Spatula					Art. no. 1014447	EAN	
Height: 370 mm	Length: 40 mm	Width: 80 mm	Weight: 64 g	Retail box: 6	Old art. no. 200109		

Perfect for easy cooking and serving. Hard tip optimal for sticky foods.

Non-stick cheese slicer					Art. no. 1003006	EAN	
Height: 20 mm	Length: 290 mm	Width: 75 mm	Weight: 44 g	Retail box: 10	Old art. no. 858146		

Suitable for all kinds of cheese, even soft cheese does not stick to the blade. Design by Tobias Wandrup.

Handy spoon					Art. no. 1002982	EAN	
Height: 45 mm	Length: 360 mm	Width: 80 mm	Weight: 114 g	Retail box: 6	Old art. no. 858101		

Heat-resistant silicone edge on a glass-reinforced nylon spoon with a pointed tip, for better control and comfort while cooking or serving food. Design by Jakob Heiberg.

Handy spatula					Art. no. 1002985	EAN	
Height: 47 mm	Length: 360 mm	Width: 80 mm	Weight: 104 g	Retail box: 6	Old art. no. 858106		

Heat-resistant silicone edge on a glass-reinforced nylon spatula to give better control and convenience cooking or serving food. Design by Jakob Heiberg.

Handy tongs					Art. no. 1002986	EAN	
Height: 25 mm	Length: 390 mm	Width: 80 mm	Weight: 98 g	Retail box: 6	Old art. no. 858107		

Pointed tip and heat-resistant silicone tips for more precision and control. Design by Jakob Heiberg.

Silicone brush

Art. no. **1002987**Height: **20 mm**Length: **250 mm**Width: **81 mm**Weight: **68 g**Retail box: **6**Old art. no. **858110**

EAN

5 702268 581103

Silicone brush with swivel head. Star-shape of the silicon bristles holds liquids better. Design by Jakob Heiberg.

Dough scraper

Art. no. **1003012**Height: **5 mm**Length: **350 mm**Width: **60 mm**Weight: **55 g**Retail box: **10**Old art. no. **858155**

EAN

5 702268 581554

Scraper with asymmetrical silicone head that can withstand temperatures as high as 180°C. Easy to use for scraping at different angles. Design by Tobias Wandrup.

Non-scratch whisk

Art. no. **1002984**Height: **65 mm**Length: **360 mm**Width: **80 mm**Weight: **111 g**Retail box: **6**Old art. no. **858105**

EAN

5 702268 581059

Whisk made of stainless steel and silicone-coated wires that will not scratch non-stick coatings. Designed to reach the corners of a pan or casserole. Design by Jakob Heiberg.

Non-stick rolling pin

Art. no. **1003021**Height: **70 mm**Length: **400 mm**Width: **140 mm**Weight: **585 g**Retail box: **6**Old art. no. **858174**

EAN

5 702268 581745

Metal pin with non-stick coating that prevents dough from sticking to the surface. Ergonomic handles. Winner of the Red Dot design award 2010. Design by Jakob Heiberg.

Functional Form cookware

The essential indoor planter series. The tool set includes a three prong cultivator, trowel and foldable knife and a handy textile cover for neat and easy storage.

Notes

Service and care

Knives

All Fiskars knives have a hardness measurement between HRC 52 and HRC 56. This enables re-sharpening, making them ideal for everyday household use. The knife blades are made of stainless steel, which ensures that they last for a long time. The handles of Fiskars knives are injection-moulded directly onto the blade, providing a tight seal that prevents bacteria from lodging there. The materials and bond of our handles allow for safe cutting even when wet or greasy. Many Fiskars knives also feature a large finger stop that minimises any risk of fingers slipping onto the blade.

MAINTENANCE

The better a Fiskars knife is looked after, the longer the intervals, before it needs sharpening. However, it is perfectly normal for a knife to need sharpening every once in a while to maintain a perfect cutting edge. A knife stays sharp longer if you make sure to always cut on a suitable surface such as a chopping board made of wood or plastic. You should never use the knife directly on hard kitchen surfaces as this will blunt the edge.

Professional chefs use a sharpening steel each time when using a knife, to make sure it is sharp and ready for use. In normal domestic kitchens, it is not necessary to sharpen your knives as often. It is enough to either sharpen them at regular intervals or simply when they need it. Fiskars knives have a hardness of between HRC 52 and HRC 56, which makes them ideal for everyday household use. The harder the blade of a knife is, the longer it remains sharp. On the other hand, greater hardness also makes the knife more difficult to re-sharpen. By contrast, a softer blade is easier to re-sharpen, but gets blunt more quickly and has to be sharpened more often, although the process is correspondingly easier. Due to their high quality, Fiskars knives stay sharp for a notable period of time after re-sharpening. Sharpening is also made easy, using either a Fiskars Roll-Sharp™ or a Fiskars sharpening steel. Using a sharpening steel requires some skill. Fiskars knives have a total sharpening angle of 30 degrees meaning that the knife should be passed down the sharpening steel at the angle of 15 degrees each way, and repeated on the other side. Use long, even strokes. Alternatively, using a Fiskars Roll-

Sharp™ for getting the job done quickly and easily. The Roll-Sharp™ should be placed on a flat surface, and the blade of the knife pushed backwards and forwards through it, 15-20 times. This makes sure the sharpening takes place at exactly the right angle. It is important that you move the knife backwards as well as forwards to make sure it gets sharpened on both sides. Irrespective of which method you prefer to use to keep your Fiskars knives sharp, you should rinse off the knife using hot water and dry it once you are finished.

CLEANING

All Fiskars knives can be placed in the dishwasher. Nevertheless, we recommend that knives are washed by hand to keep them sharp longer. When washing your knives by hand, rinse and dry them off straight after washing. Fiskars knives must not be left to soak. It is also important not to allow food remains to dry on the surface of the knife, because acids present in the food residue will damage the knife in the long run. If you do put Fiskars knives in the dishwasher, it is a good idea to make sure they do not come into contact with other utensils, dishes or cutlery, because this will cause damage to the cutting edge.

Small amounts of rust are sometimes present in dishwashers of all kinds, and these can spread around while the dishwasher is running. These rust spots can stem from the inside of the dishwasher itself, or from other items being washed. They may also have been left behind by previous washes. If you prefer to wash your Fiskars knives in the dishwasher, open the door to let the steam escape. It is also a good idea to dry off the knives with a dry cloth once the dishwasher cycle is complete. If rust spots do appear on your knives you can remove them by using a regular steel cleaning product.

STORING

Most knives quickly become blunt, if they are just placed in a drawer, because the cutting edge gets damaged by movement and contact with other items. To keep Fiskars knives sharp, they should either be placed in a knife block or on a magnetic wall rack.

Scissors

The handles of all Fiskars scissors are injection-moulded directly onto the blades. This makes them as hygienic as possible, because there are no cracks and gaps in which bacteria can accumulate. Our handles are made of impact-resistant plastic.

The nickel-free blades are precision-ground, and made of hardened Swedish Sandvik steel with a hardness of HRC 55 or HRC 57. The tension between the blades can be easily adjusted.

MAINTENANCE

Most of the handles on Fiskars Classic scissors are made of polybutylene terephthalate (PBT), a plastic that can be sterilised effectively using either gamma rays or an autoclave. If you use an autoclave, the temperature should not exceed 137°C. It is a good idea to keep the blades sharp by regular use of a Fiskars Clip-Sharp™. Fiskars scissors are generally dishwasher safe.

STORING

Some Fiskars scissors are sold in a storage cover that makes sure no one catches their fingers or hands on the points if the scissors are lying around or are in a drawer. The cover also helps protect the scissors against damage, and keeps them sharp longer.

Cutlery

All Fiskars cutlery is made of stainless steel. Despite the name, no steel of any type can be absolutely resistant to external influences. Stainless steel is a name for steel that is rust-resistant, and where any small particles of rust can easily be removed using steel cleaner.

CLEANING

New cutlery should always be washed before first time use. To keep Fiskars cutlery looking good for as long as possible, it is advisable to polish it with a regular steel cleaning product at least once a year.

Handwashing is recommended for Fiskars cutlery to keep the items in good condition. Cutlery should be dried carefully after washing. If cutlery is placed in the dishwasher, it should be rinsed beforehand. Once the dishwasher cycle is complete, the door should be opened to let the steam escape. To get the very best result, cutlery should be dried with a cloth once the dishwasher cycle is complete.

Small amounts of rust are sometimes present in dishwashers of all kinds, and these can spread around while the dishwasher is running. These rust spots can stem from the inside of the dishwasher itself, or from other items being washed. They may also have been left behind by previous washes. If rust spots do appear on your cutlery, you can remove them by using a regular steel cleaning product.

Service and care

Cookware

Fiskars uses durable materials of high-quality and also invests in R&D in order to make the best possible cookware, every day.

ALUMINIUM AND STAINLESS STEEL FOR THE BEST POTS AND PANS

As a core material for coated pans aluminium beats all others thanks to its phenomenal heat conductivity. Also the sides of the pan heat the food. Aluminium pans are easy to handle because aluminium is a light metal. It is also a soft material, which is why we coat the entire pan so it can withstand wear much better. Stainless steel is extremely durable, easy to care for and to clean. Stainless steel withstands very high temperatures and corrosive substances, such as acids. Only highly concentrated solutions of cooking salt and extremely strong acids can damage a stainless steel surface. Products with bakelite fittings are oven safe up to 150 degrees and products with stainless steel fittings up to 250 degrees.

COATINGS

The quality of the coating is essential and therefore Fiskars is constantly working to make coatings stronger and to further improving their non-stick properties. The Fiskars PTFE-coating has excellent non-stick properties. The advantages of this coating include its hardwearing nature and effective corrosion protection. For a longer life span, please use plastic and wooden utensils. Fiskars coatings do not contain Perfluorooctanoic acid (PFOA).

USE AND MAINTENANCE

Put some oil or a couple of tablespoons of water in the pan before starting to cook. Do not heat up an empty pan. Once the oil has browned or the water has evaporated, the pan is hot enough for frying. Fry on moderate heat. Temperatures above 250 °C can damage the coating. Do not add salt before the water is boiling, and do not store food in coated pans. Hot cookware should not be put in cold water as the temperature shock may cause the base to become uneven.

CLEANING

Wash the cookware before using it for the first time and clean the cookware immediately after use. The stainless steel products are dishwasher safe. Washing coated aluminium and stainless steel cookware by hand will prolong their life span.

! All Fiskars Kitchen products are officially approved for use in direct contact with food products.
