The no. 1 scissors brand in the world
Whether you are preparing food, sewing, working in your garage or crafting with your kids, we have the perfect pair of scissors for you.

The quality of the scissors is closely monitored at Billnäs factory in Finland. Every pair of scissors is tested by opening and shutting the blades and checking the characteristic sound. The scissors are also tested by cutting the most challenging material, fabric. High quality standards and control guarantee that only first class scissors leave the factory.

Today, our scissors are loved worldwide for their superior cutting performance and legendary durability.
What makes our scissors unique?

Orange scissors, now a classic, has always represented the peak of technological development in terms of production methods and materials.
Only the best materials
Our scissors are made of high quality and durable materials: Scissors have superior cutting performance and legendary durability.

Comfort & fit
Our scissors have the best ergonomy.

Production
Most of the scissors are made in Finland.
Whether you are preparing food in the kitchen, sewing in your hobby room, crafting with your kids or cutting flowers in the garden, Fiskars has the right pair of scissors for you.

Widest scissors offering across all categories

* Handles made of impact-resistant PBT, PP or ABS plastics | Classic scissors with orange handles (except nos. 1005130 and 1003025) can be sterilised using an autoclave at temperatures of up to 137°C
* * Except nos. 1005130 and 1005225, 1005223 and 1016211
* * * 1005166 and 1005169 are made in Finland

The blade tension of most of our scissors can easily be adjusted by tightening the screw, enabling simple cleaning as well.
Service and care for scissors

The handles of all Fiskars scissors are injection-moulded directly onto the blades. This makes them as hygienic as possible, because there are no cracks and gaps in which bacteria can accumulate. Our handles are made of impact-resistant plastic.

Classic, Functional Form and Inspirational product families are made of nickel-free blades that are precision-ground, and made of hardened Swedish Sandvik steel with a hardness of HRC 55 or HRC 57. The tension between the blades can be easily adjusted.

MAINTENANCE
Most of the handles on Fiskars Classic scissors are made of polybutylene terephthalate (PBT), a plastic that can be sterilised effectively using either gamma rays or an autoclave. If you use an autoclave, the temperature should not exceed 137°C. It is a good idea to keep the blades sharp by regular use of a Fiskars Clip-Sharp™. Fiskars scissors are generally dishwasher safe.

STORING
Some Fiskars scissors are sold in a storage cover that makes sure no one catches their fingers or hands on the points if the scissors are lying around or are in a drawer. The cover also helps protect the scissors against damage, and keeps them sharp longer.
Fiskars has been shaping the world since 1649. Our scissors have cut millions of meters of fabrics. Our axes have chopped millions of trunks. Our knives have cut millions of slices of bread. Our pans have fried millions of carefully marinated steaks – all leading to 100% Happiness.
